Times Of India

The Times of India along with FICCI and TANCARE organized the launch of Coffee Table Book on December 20th, 2016 (Tuesday). Ortho-One Orthopaedic Speciality Centre was awarded the “Beacons of Care” for the outstanding services rendered in the field of Sports Medicine.

The event was attended by MD’s and CEO’s of private Medical Hospitals, Senior Independent Doctors and Consultants, Hospital Administrators, Heads of various departments of many specialty Medical Centers and Professionals from Medical Institutions and allied Health service providers.

The Conference also had discussions on critical issues such as the quality of healthcare delivered in the District, aspects of technology that act as differentiators for enhancing access and affordability in healthcare delivery and how many women have turned out leaders in the healthcare Industry.

Christmas Celebration

Christmas is a festival of Joy, Hope and Cheer. The Birth of Jesus Christ is celebrated around the World on December 25th.

We, at Ortho-One celebrated Christmas with the entire team on December 23rd, 2016 (Friday) between 5:30 p.m. – 8 pm. Mr. Vinod Shankar was the Special Guest. He shared an inspiring message with the team.

The Staff members enthusiastically participated in many events like skit, songs etc. Santa Claus entering in suddenly was one of the fun events in the program. It was encouraging to see few patients participating in the Christmas celebration. It was a grand success filled with joy and happiness.

The event finally came to a close with cake cutting and refreshments.

One of our patient's, Mrs. Subbulakshmi says,

"I am Mrs. Subbulakshmi, and I am 72 years old. I was travelling in a car and unfortunately the car tyre got flat and I had a sudden jerk. I had severe pain in my hip and I was taken to Ortho-One by my family members. The Doctors diagnosed me and I was advised to undergo a surgery as my hip on the right side was fractured. I was very nervous and I came to a conclusion that I won't live any more. Dr. Karthik Selvaraj took utmost care and I am fine now.

The nurses were very friendly and patient. The ambience of the Hospital is very pleasant and I felt very comfortable during my stay there. The food also tasted very good and it was served at the right time. I thank Ortho-One for extending the days of my life."

Selective Bundle Reconstruction of ACL

This is an example of Advance Sports Medicine Work done with Ortho-One recently. Usually, if one of the two bundles of the Anterior Cruciate Ligament is torn, no surgical intervention is done. Though the Athlete had disability, we retained the good part of the ACL and reconstructed only the torn part of the ACL. This will however enable the disabled Athlete to reach the original level of activity without any difficulty.
